Andriy Protsiuk

# When we will win. Observation of Our great absolute Genetical White Raced NS future.

# Society of the future

Society of the future will be absolutely symbiotic – in all senses of this term.
Absolute happiness.
More detailed in the “prologue booklet to the Neorevolution”.

# States of the future

Absolute happiness in the absolute Genetical White Raced NS.
More detailed in all the parts of the “Neorevolution”.

# Religion of the future

All over the world governments religion (with the native rel
will be esotheric Hitlerism of the Geney's type, also known as Geneyism.

# Languages of the future

Government's international language of all over the world (with the native languages of some certain countries) will be the language of the absolute Genetism (Protsiuklang).
Absolute Genetical language will use the names of the certain Genes (which coded some proteins), which will create many different sentences, with certain punctuation and certain syntax.
Other international languages – science languages.
Physical language will replace common words with certain physical symbols and certain physical laws, with certain punctuation and certain syntax.
Chemical language will replace common words with certain chemical elements and certain chemical formulas, with certain punctuation and certain syntax.
Mathematical language will replace common words with certain mathematical symbols, certain mathematical formulas and certain mathematical figures, with certain punctuation and certain syntax.
Combined language will combine all this languages with certain punctuation and certain syntax.

# Sciences of the future

The sciences of the future will be mostly absolute and they will be absolutely connected to the absolute God Geney.
Absolute physics, absolute chemistry, absolute biology, absolute mathematics, absolute psychology, absolute history, absolute geography, absolute medicine, absolute theory of the world.
from my own created theories will be textbooks.
From already existed sciences will be great development of the neurosciences, great development of the microelectronics, great development of the informatics, theory of programming, etc.

# Arts of the future

Books of the future will be saved mostly in the form, which people mostly cannot defeat with easy methods.
Arts of the future will be absolute.
All paintings will be absolutely perfect.
Architecture of the future will be absolutely perfect.
All arts will be absolute emanation of the absolute Gene of the absolute God Geney.
Absolute painting, absolute sculpture, absolute theatre, absolute cinema, absolute architecture, absolute poetics, absolute literature, absolute music.
All branches of the future will work by the future arts principle and future sciences principle.
I detailed more in the 4th part of the “Neorevolution” and 7th part of the “Neorevolution”.

# Nature of the future

Absolute naturalism.
We will live in the future with absolute love.
I detailed more in the 2nd part of the “Neorevolution”.

# Technologies of the future

Technologies of the future will be absolutely perfect. Technologies of the disinfection of the radiation, microelectronics, informational technologies, radiomedicine, radiochemistry and radiophysics – big part of the future's technologies.
By the technological view, we want to see architectural buildings, like the "Tyrell Corporation" in the "Blade Runner" (1982).

# Content of the book

•Society of the future
p.2
•States of the future
p.3
•Religion of the future
p.4
•Languages of the future
p.5
•Sciences of the future
p.6
•Arts of the future
p.7
•Nature of the future
p.8
•Technologies of the future
p.9
